

WORKING CATS

SPONSORED BY NATALIE DUNLAP

Supporting a working cat is a great way to control the rodent population in your property AND save the life of a cat in our community. The Kansas Humane Society regularly takes in formerly outdoor, semi-social, or feral cats that are not suitable as household companions - but make excellent working cats.

KHS Working Cats are 'pick your price' and have had spay/neuter surgery, vaccinations, and ear-tip & microchip for identification. Interested? Contact the Kansas Humane Society for details at (316) 524-9196 or barncats@kshumane.org.
